ALDY OSCAR PANCASILA LOING

Manado, Indonesia
loingaldy@gmail.com | WA: +6282293494989 | www.linkedin.com/in/aldyloing | github.com/AldyLoing

Aldy is a Cum Laude Information Systems graduate with hands-on experience in IT operations, system administration, network support, and software development. He has been involved in managing technology infrastructure, supporting business applications, troubleshooting hardware and software issues, and leading the development of digital solutions for organizational and operational needs. His experience spans hospitality, public sector, startup, and sustainability-focused environments, where he has collaborated with multidisciplinary teams to improve efficiency, optimize processes, and implement technology-driven solutions. Supported by national-level achievements, leadership experience, and cloud computing training, Aldy combines strong technical expertise, analytical thinking, and team coordination skills to deliver reliable and scalable IT services.

EDUCATION

Universitas Sam Ratulangi – Information Systems *2021 – 2025*
GPA 3.93/4.00 – Cum Laude

SMA Kristen Eben Haezar Manado – Natural Sciences *2018 – 2021*

ACHIEVEMENTS

Finalist – BRIN AIDeaNation (Jakarta) *2025*
Selected as one of the national finalists with the innovation project Eco Vending Machine (EVM) with Blockchain Integration, a digital solution designed to create a transparent and sustainable waste management system by leveraging blockchain technology for accountability and efficiency.

Finalist – Abdidaya Nasional (Bali) *2024*
Built a digital waste bank management system for a village-scale empowerment initiative. Features include user onboarding, waste input records, and dynamic bank unit dashboards.

Cloud Computing Cohort – Bangkit Academy (by Google, GoTo, Traveloka) *Aug 2023 – Jan 2024*
Selected as a participant in a prestigious national program organized by Google, GoTo, and Traveloka, completing ±900 hours of intensive training in cloud computing, DevOps, and industry best practices, and successfully delivering a capstone project integrating machine learning with cloud technology.

WORK EXPERIENCES

Information Technology Staff – Sintesa Peninsula Hotel Manado *Dec 2025 – June 2026*
Handled daily IT operations including system and network maintenance, troubleshooting hardware and software issues, supporting administrative applications, and assisting end users. This role was conducted as part of a government-supported internship program for fresh graduates organized by the Ministry of Manpower (Kemnaker), providing hands-on industry experience in a professional hospitality environment.

Chief Technology Officer (CTO) – PT. Baciraro Kreatif Minahasa *June 2024 – Present*
Lead the company's technology strategy and digital transformation initiatives, overseeing the design, development, and implementation of web-based platforms that support sustainability, waste management, and circular economy programs. Manage software development projects, technology infrastructure, and digital innovation efforts while collaborating with cross-functional teams to deliver scalable, user-centered solutions that enhance operational efficiency, stakeholder engagement, and organizational growth.

IT Support Intern – North Sulawesi Police Department (Polda Sulut) *Jan 2024 – Feb 2024*
Assisted in maintaining internal systems, resolving network issues, and supporting end-user operations during the internship at the regional police IT division.

PROJECT EXPERIENCES

Baciraro – Sustainability Ecosystem Platform *May 2026*
Developed a privacy-first, AI-powered life intelligence platform that transforms continuous daily activity logs into structured insights and multi-timeframe analytics. Built an append-only logging system, AI-generated daily summaries, and periodic reports (weekly, monthly, quarterly, yearly) with zero-hallucination conversational AI trained exclusively on user-owned data. Implemented semantic vector search using pgvector, secure authentication with Supabase Row-Level Security (RLS), and scalable server-side operations to ensure data sovereignty, privacy, and high performance.
Live Demo: https://www.baciraro.net/ | GitHub: https://github.com/OrdersMDC/Baciraro-Kreatif

Maleosan Travel – Multilingual Tourism & Travel Platform *Feb 2026*
Developed a modern multilingual travel platform for the North Sulawesi tourism industry using Next.js, TypeScript, Prisma, MySQL, and Tailwind CSS. Implemented a SEO-focused public website and integrated admin CMS for managing tour packages, hotels, transport services, testimonials, and multilingual travel content. Built automated translation workflows, media upload APIs with Cloudinary integration, responsive UI, and structured content management features to streamline publishing, improve search visibility, and support scalable tourism operations.
Live Demo: https://www.maleosantoursmanado.com/ | GitHub: github.com/KevinJeremi/maleosan-web

Sentivize – AI-Powered Employee & CV Analysis App *Nov 2025*
Developed an AI-driven web application using Streamlit, Python, and Hugging Face Transformers to analyze employee data and CVs. Implemented automated information extraction, sentiment and relevance scoring, semantic keyword matching, and batch CV processing with Excel export. Designed interactive dashboards and visualization tools to support HR analytics and data-driven recruitment decisions.

ORGANIZATIONAL EXPERIENCES

Leader – ORDERS *June 2025 – Present*
Led a digital initiative committed to building elegant, efficient, and sustainable technology solutions. Focused on transparent systems and environmentally conscious digital development to support social impact and innovation.

Chair – PPK Ormawa HIMSIFOR UNSRAT *Jan 2024 – Nov 2024*
Led a student team in executing the “Rumah Sampah Digital” program in Desa Kolongan, empowering the local community through workshops, app deployment, and sustainability training. The initiative advanced to the Abdidaya Nasional in Bali.

Member – HIMSIFOR UNSRAT (Department of Interests and Talents) *Feb 2023 – Feb 2025*
Actively participated in organizing tech-based and talent development programs, contributing to events such as coding workshops, design challenges, and student innovation showcases.

ADDITIONAL

Language: English (intermediate), Bahasa Indonesia (native)

Technical Skills:

- **Programming Languages:** Python (expert), JavaScript (advanced), TypeScript (intermediate)
- **Frameworks & Libraries:** Django & Django REST Framework (expert), Next.js (advanced), Laravel (intermediate), Streamlit (advanced), React (intermediate)
- **Database Management:** Supabase (advanced), MySQL, SQLite, PostgreSQL, SQL (intermediate)
- **Web Development:** HTML5, CSS3, Tailwind CSS, Bootstrap 5, RESTful API design
- **Cloud & DevOps:** Google Cloud Platform (basic), Vercel, Railway, GitHub Actions (CI/CD basics)
- **Mobile Development:** Android Studio (intermediate)
- **Machine Learning & AI Tools:** Hugging Face Transformers, Sentence Transformers,
- **UI/UX Design:** Figma (intermediate), Canva (advanced)
- **Version Control:** Git, GitHub (expert)
